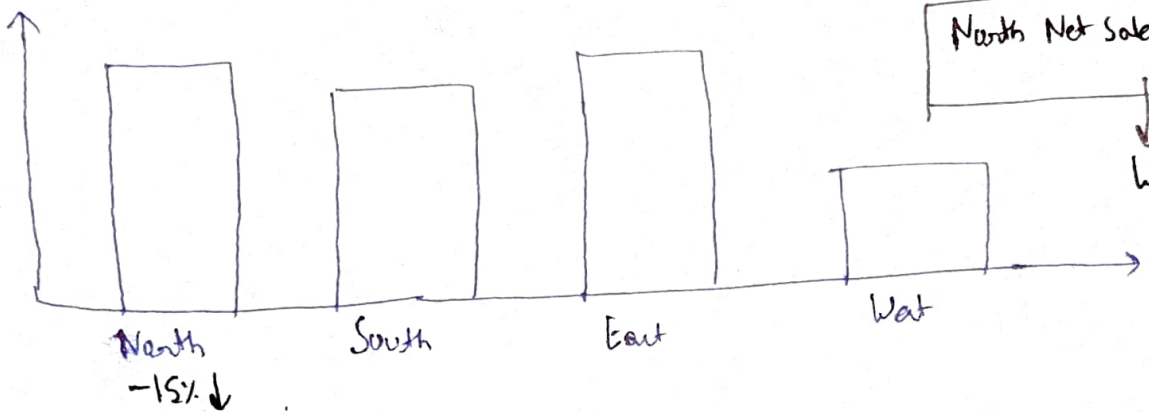
② Opportunity/Redemption

Idea: We generally see opportunity/Redemption by City, So we create a page, which dynamically show the top product, net sale and trend by selected City.

Zone Level



North Net Sale = -15% ↓

↓

Which State ?

North State Level

State	Net Sale	Explore
Haryana	10% ↑	↗
Punjab	5% ↑	↗
Rajasthan	-30% ↓	↗

→ Which City ?

Rajasthan City Level

City	Net Sale	Explore
Jaipur	4% ↑	↗
Udaipur	5% ↓	↗
Kota	8% ↓	↗
Ajmer	15% ↓	↗

→ This will open a, city level page, which shows the AI summary, Opportunity, trend etc.

Kota City Page (AI Summary)

① The dip is localized in bank Channel | **Opportunity** — Push correct product, low mobility.

② Within Bank, retail segment is growing, but institution flow have vanished.
| **opportunity** — Contact wake head of city, and focus on SMEs/Trusts/HNIs.

③ The loss is entirely in Liquid Funds. | **opportunity** — Shift to better alternatives like hybrid fund (moderate risk).
